Unit 3: In-class Analysis

Miniproject 3 Info

- Background: Flights are carefully coordinated so that any plane doesn't spend too much time on the ground. Because the same plane is often used for multiple flights, even short delays can cause ripple effects across flights that day.

- Perform an analysis of data on Delta flights from SLC to ATL to see how often they are delayed.

In-class Analysis Rules

- Due by 11:59pm this evening

- Do NOT share the password with anyone

    - if we catch you doing this you will be given a 0

- If you are ever gone for an in-class analysis, you can request the password through stat121-zoom@byu.edu but requests MUST come in BEFORE the deadline.

- You have 2 attempts to get them all right

Password

For today, our goal is to understand the proportion of students that are vegan. Use the **student survey** data (your data) to figure out the proportion of all BYU students that are vegan. Questions are in the in-class analysis 3 assignment on LearningSuite.
