Unit 4: In-class Analysis

Miniproject 4 Info

- Background: Getting patients the care they need is, obviously, vital. How long patients wait to receive care depends on the triage result at check-in.

- Perform an analysis of ER wait times for one Canadian hospital as explained by triage outcome.

In-class Analysis Rules

- Due by 11:59pm this evening

- Do NOT share the password with anyone

    - if we catch you doing this you will be given a 0

- If you are ever gone for an in-class analysis, you can request the password through stat121-zoom@byu.edu but requests MUST come in BEFORE the deadline.

- You have 2 attempts to get them all right

Password

For today, our goal is to understand if students in different colleges do different amounts of HW per week. Use the **student survey** data (your data) to figure out if this is true or now. Questions are in the in-class analysis 4 assignment on LearningSuite.
